

مصنع الحسن للمفاتيح الكهربائية ش.م.م.ر. Al Hassan Switchgear Manufacturing Co. L.L.C.

Introduction

Al Hassan Switchgear Manufacturing Company LLC (AHSG) is the manufacturing arm of the Al Hassan Group of Companies, a business conglomerate with 5000+ employees having operations in Oman and UAE engaged in Contracting, Manufacturing and Trading activities in Oil, Gas and Petrochemicals, Power, Water and Wastewater sectors. AHSG began as an assembly workshop in 1992 and has achieved dynamic growth to become today one of the largest established and integrated Switchgear manufacturers in the GCC in terms of turnover, product range and technology.

Accolades

The zeal for continuous improvement and quality-consciousness has enabled Al Hassan to win many accolades including:

- His Majesty Cup for the Best Five Factories
- His Majesty Shield for the Best Five Factories
- No. 1 Switchgear Brand in Oman (Observer Brand Surveys 2008-09, '09-10, '10-11, '11-12)

Al Hassan Switchgear has also won a number of appreciation letters from its customers.

Manufacturing Facilities

Its sprawling state-of-the-art manufacturing facilities at Muscat and Buraimi spread over 60,000 m² make AHSG the largest switchgear manufacturer in Oman with following in-house capabilities:

- Design & Engineering
- Metal Processing
- Pre-treatment & Painting
- Assembly Lines
- Copper Processing
- QA / QC Testing

International Accreditations

Al Hassan facilities are certified under ISO 9001:2008 by TÜV SÜD and KEMA KEUR by DEKRA (Netherlands). Al Hassan Panels are tested and certified by reputed authorities like DEKRA (Netherlands), UL (US), ASTA (UK), CPRI (India) for various types and ratings as per IEC.

Products

Al Hassan has an all encompassing product basket. The product-spectrum caters to standard and non-standard requirements of Utilities and Private customers and includes:
